

Application-specific Power Distribution

For over 30 years Marway has specialized in power distribution solutions optimized to save space and weight, and meet the unique power needs of our customers' applications in military, defense, aerospace, and other markets.

Marway is one of a few power distribution companies offering customized products. Our emphasis on the design, manufacturing, and collaboration to meet unique needs has been a valuable differentiation for our Mil/Aero customers over a broad range of field, support, and test applications.

We're certified AS9100 with ISO 9001, but a focus on quality and service has been part of the Marway DNA from the very beginning. We believe our attention to quality is a key to the repeat purchases, recommendations, and customer awards (Lockheed Martin Star Supplier Program, 2008) we receive.

Optima™ Series Power Distribution Units

Our core products include power distribution units (PDU) and universal control panels (UCP) in standard, modified, and custom configurations for rackmount infrastructures. Each application's unique needs are addressed with power conditioning, conversion, control, and monitoring technology along with packaging optimization.

PowerPlus™ Integrated Racks

PowerPlus systems integrate the extended engineering, design, and packaging of Marway plus 3rd-party systems to create turn-key, rack-based control centers where the optimization of power distribution is an integral design objective.

Where critical equipment comes together in a rack system, power distribution usually plays an important role. Some equipment sets will need specific power conditioning requirements. Some will have different ac and dc power forms. And, for some racks, space constraints will dominate the need for creative solutions. Marway can address these design needs and more.

Marway Power Solutions
1721 S. Grand Ave.
Santa Ana, CA 92705
Phone: 800-462-7929

Classification:

SBA Small Business, self certified AS/ISO

Codes:

NAICS 335311, 335313,
335931, 541330
CAGE 60955
DUNS 09-609-9007
EIN 95-3439544

Standards and Certifications:

Marway has delivered products meeting the requirements of many commercial and military specifications including NEC, CSA, TUV, UL, C-UL, CE, MIL-SPEC, and others.

Select Customers:

Agilent	Parker Hannifin
American Express	Raytheon
Anixter	Rockwell Collins
BAE Systems	Target
Boeing	Teradyne
Bonneville Power	
Celestica Aerospace	Edwards AFB, CA
Cybercore	Electric Boat
Caliper Life Science	Lackland AFB, TX
DRS Technologies	USAF - Ellsworth, SD
EMC	USAF Intelligence Group
Essex Corporation	NAVAIR, FL
General Dynamics	NAVESEA, RI
Goodrich	NAVAL, DC
Harris	NAWC, WA
Hewlett Packard	NASA - Goddard
Hitachi	NSWC - Crane Division
Honeywell	NSWC, MD
Hughes	NUWC, RI
KLA Tencor	Peterson AFB, CO
Northrop Grumman	SAF/FAO, VA
L3 Communication	SPAWAR, SC
Lockheed Martin	USAF, NC
Motorola
